

HARRISON'S CHOICE.

Disappointment of Certain Sections in Not Securing a Position.

WASHINGTON, March 5.—President Harrison's Cabinet, as nominated and confirmed by the Senate, was that previously announced in the dispatches of the California Associated Press. His selections are criticised mainly because no recognition is given the Pacific Coast. Southern men are also complaining because no man representing that section distinctively has been selected. Gen. Noble's fitness to discharge the duties of the Secretary of the Interior is recognized by everybody and Missouri people say no better selection could have been made; but Missouri is not classed as a Southern State, and Californians hoped that some man thoroughly familiar with every question concerning the public domain, railroad land grants and irrigation, such as Mr. Swift would have been, would be selected.

The inaugural address was not a surprise to those acquainted with General Harrison's inclinations. It was, however, a formidable document to the army of office seekers in Washington. They were dismayed by General Harrison's announcement that he proposed to carry the Civil Service law to a greater extent than his predecessor, and his warning that persistency in the search of office would not favor the chances of any applicant.

Southern Democrats were not displeased at the tone of the message as affecting their section, and generally it met with popular approval.

In all the comment and criticism of the Cabinet, it was conceded that the selections were the personal choice of the President, and being such his selections were admirable. Every element composing the Republican party is represented.

General "Jerry" Rusk, of Wisconsin, who is at the head of the Agricultural Department of General Harrison's Cabinet, has lived a life of varied experiences. He was the tow-path companion of Garfield when the latter was a boy, and has been a stage driver, farmer, sheriff, legislator, soldier, Congressman and Governor of the Badger State.

A very important place to the Pacific Coast is that of Commissioner of the General Land Office at Washington, and Senator Stewart has recommended ex-Congressman Wren, of Nevada, for that place. The JOURNAL hopes President Harrison will appoint Mr. Wren.

Thirty Acts which had passed Congress failed to become laws because the President did not sign them. The most prominent was one granting a pension to the widow of General Kilpatrick.

Ex-Representative Wren, of Nevada, has been recommended by Senator Stewart and the California delegation in Congress for Commissioner of the General Land Office.

The amount carried by the General Appropriation bills passed at the last session of Congress is \$281,879,000, against \$306,986,000 appropriated for the current year.

A delegation of the residents of Arizona is in Washington for the purpose of securing an early change in the Governors of that Territory.

Whitlaw Reid stands the best chance to be Minister to England. Ex-Governor Porter, of Indiana, is backed for the mission to Rome.

In the Senate, Friday, Stewart introduced a resolution providing for the purchase of \$4,000,000 worth of silver bullion a month.

Sir Julian Pannocoforte, the new British Minister to the United States, will start for Washington about the end of the month.

The Apportionment bill did not pass, but Washoe and Elko will secure their rights at the next session.

It is stated that Judge Gresham will be appointed to the Supreme bench to fill the first vacancy.

The price paid by W. J. Arkell for Frank Leslie's Illustrated Newspaper was \$400,000.

General McClellan's monument at Trenton, N. J., will be dedicated May 30th next.

President Harrison is beginning to know how it is to shake hands.

The proceeds of the inaugural ball were about \$60,000.

Blaine is next in succession.

THE PLUMED KNIGHT.

Wild Cheering for the Statesman From Maine.

WASHINGTON, March 6.—The Secretary of State, Blaine, was one of the early callers to-day, and after shaking hands with the President he remained by his side talking to him for a few minutes and then passed out. Immediately he reached the open air he was recognized, and the crowd cheered him to the echo and surged around him in a dense, excitable, clamoring mass. Mr. Blaine, it was evident, was highly pleased by the demonstration, and yet taken aback by its heartiness and spontaneity. Everybody wanted to grasp the Secretary's hand, and he shook the outstretched hands which were thrust at him by the hundred men nearest to him. He tried to push on out of the grounds, but the crowd would not let him off so easily. They had him surrounded and, not content with grasping one hand, the people seized that which was nearest to them, and at one time Mr. Blaine had hold of a dozen hands, six on a side. It took the Premier fully fifteen minutes to get off the porch, and for a few steps his path was comparatively unobstructed, but as he neared the lower gate the crowd again recognized him and made another rush, and again the cheering and hand-shaking was resumed, and Mr. Blaine witnessed a repetition of the former scene. The crowd had so much superfluous enthusiasm that it cheered on the slightest provocation.

The Cabinet Officers.

WASHINGTON, March 6.—The new Cabinet members took possession of their respective departments to-day. Postmaster-General Wadsworth arrived from Philadelphia this morning. All called at the White House and paid their respects and received their commissions. They then went to the departments and took the oath of office. Secretary of the Navy Tracy was the first to qualify, which he did at 11:30. Secretary of War Proctor was the next, and the others as fast as they reached their respective places. Blaine took the oath at 2 o'clock. The various chiefs of divisions and other prominent officials each waited on the new Secretaries and tendered their resignations, but were generally asked to wait awhile.

Henry L. Gorton, arrested in Missouri on a charge of robbing Ingram's stage in Sonoma county last December, arrived in San Francisco Tuesday and was held by Commissioner Sawyer, of the United States Circuit Court Wednesday morning in \$10,000 bonds.

Emma Nevada, who has recently been singing in Rome, was received by the Pope at a private audience, a distinction shown because of her conversion to Catholicism.

NEW TO-DAY.

COUNTY COMMISSIONERS.

AT THE REGULAR MONTHLY SESSION of the Board of County Commissioners, held Monday, March 4, 1890, the following bills against the county were passed upon and allowed:

Frank Heins, noxious animals.	\$ 11 00

There is no smallpox at Reno.

Truckee has the baseball fever.

T. S. Merchant was in town yesterday.

The saloons will have to close at 12 o'clock.

The State legislators are seeking their homes.

Sheriff Sweeney, of Elko, went below last night.

Ex-Governor Adams came down from Carson last night.

Geo. I. Lammon wants to be U. S. Marshal of Nevada.

The Legislature adjourned since die at 12 o'clock last night.

The Weekly JOURNAL is a paper of which Reno may well be proud.

The Commissioners yesterday selected John Douglas for Chief of Police.

Gen. Chas. Forman formerly of the Comstock, was a passenger for Virginia.

H. H. Boelt was sick yesterday and not able to be in his seat in the Assembly.

All kinds of garden seeds can be found at Pinner's, including espersette or sunflower.

The constitutionality of the 12 o'clock bill will be tested by Storey county saloon and club room proprietors.

Work on the Pyramid mine will be resumed in a few days, and the ore taken to the Reno Reduction Works.

The Winter term of the University will close on the 21st inst., and the Spring term will open on the following Monday.

The two sons of the Kaiser family at Carson are said to be very sick with the smallpox, and Willie, about 19 years old not likely to pull through.

The people of this county owe the California Legislature a vote of thanks for passing the bill preventing the dumping of sawdust into the river.

The law passed by the California Legislature to prevent the throwing of sawdust into the streams in that State goes into effect on the first of September.

Commissions as members of the State Board of Agriculture for the ensuing four years have been issued to W. S. Bailey, W. O. H. Martin and H. M. Yerington.

It looked yesterday morning as though this section would have a storm before night, but "Old Sol," put in an appearance before noon and dispelled all storm ideas.

Split or limb wood delivered for five dollars per cord. Wood loaded so buyer can measure. Leave orders at the N. & C. R. depot, Folsom & Wells or M. Nathan's.

COMMISSIONERS.

Business Meeting Yesterday.

The Board directed the Treasurer to make deed to W. W. Morton for the lands purchased a year ago for a highway from the Virginia road to the old Fair grounds. Consideration \$150.

The report of the appraiser in the matter of condemnation of land for the extension of Ralston street was accepted and the amount awarded (\$304) allowed.

The chairman was appointed a committee to attend to the arranging for a pest house at Wadsworth.

John Douglas was appointed Chief of Police for Reno.

The following bills were allowed:

John Hogan, care of sick.....	\$19 00
W. D. Wagar, dentistry.....	1 50
C. C. Ross, road work.....	50 00

Adjourned until Saturday.

At a meeting of the Board of School Trustees of Reno School District No. 19, held on Saturday, March 23, 1889, the following claims were allowed:

Teachers' salaries.....	\$1,000 00
Janitors' salary.....	70 00
Library fund.....	41 75
Evening Gazette, printing....	7 00
Nashby's Bazaar, supplies....	11 08
Folsom & Wells, supplies....	4 75
Manning & Jaques, plumbing..	11 10
Reno Lumber Co.....	7 67

There appearing no other business the Board adjourned.

S. M. JAMISON, Sec.

Agreed to Disagree.

The jury in the Laird case came into Court yesterday afternoon, after having been out twenty-four hours, and were discharged, being unable to agree. They stood six to six on one of the brothers and nine to three for conviction on the other.

Fine Horses.

Mr. Morgan, of Laramie, Wyoming, has nine fine horses at Hymers' stable. Seven of them are imported Norman-Parcheron, and the best ever seen in Reno. They are all worth looking at

PROBABLE SCHEMES

Which Will Add to the Prosperity of Truckee to Be Inaugurated Soon—Furnishing Power to the Comstock—Valuable Ice Locations—Wood and Lumber Interests.

The Truckee Republican, of Wednesday, contains the following interesting article:

Enormous as are the profits to be derived from storing water in the lakes above Truckee, and sending it down to reclaim the desert lands of Nevada, the company that stores water in Tahoe and the other lakes, have additional sources of revenue. The distance from Bronco to Virginia City is between seventeen and twenty miles. Over this distance the transmission of power by electricity can be effected with a loss of between forty and sixty per cent. of the original power. In a distance of half a mile from Bronco the Truckee river has sixty feet of fall, and by continuing a ditch the fall can be increased indefinitely. The land at this point has been bonded by the same parties that bonded the Truckee Lumber Co.'s 18,000 acres of land. A ditch has been located and a site secured for the erection of mammoth electrical works. As the natural flow of the river cannot be diverted from the channel of the stream to be taken to Long valley, the storage company will have to permit a certain specified number of inches to pass at all times down the river. While the surplus or waste waters of the river are ample for irrigation, it is not designed to let the ordinary flow of the river remain unutilized. Diverting this natural flow by means of a dam twenty feet high, erected on the lands of the company and conveying it half a mile in a ditch also constructed on the company's lands, it is proposed to allow the waters to drop vertically eighty feet into turbines of the most approved pattern, and the power thus developed will be carried by belts to generating dynamos of the requisite horse power. The electricity thus generated, conveyed over insulated copper wires will transmit to electrical motors on the Comstock and will enable mine owners to have a cheap, steady, reliable power. It is estimated that the work now required to operate the hoisting works and mills of the Comstock mines, costs annually

HALF A MILLION DOLLARS.

By reducing the cost of power forty per cent., three hundred thousand dollars could annually be obtained from the water power of the Truckee river. It is certain, moreover, that this reduction in the cost of power would enable large bodies of low grade ores to be worked, that now lie untouched, old abandoned mines would be worked, and Virginia, Gold Hill and Silver City would awaken to their old time prosperity. The leading electrical companies of America have furnished estimates for the erection of the dynamos and motors, and for doing the line work, and are willing to guarantee that the plant when placed in position will accomplish the work and give entire satisfaction, or they will ask no pay. The plan has often been talked of by electricians and mining men, but has heretofore been impracticable because of the unreliable flow of the Truckee river. When log-driving is in operation and the dams are closed down, there is scarcely any water, and when the floods come the great volume of water becomes a positive menace to dams and ditches. To allow a steady, continuous flow of a specified quantity of water, a perfect system of storage must be maintained, and the amount released day and night during the entire year, must be nicely and accurately adjusted. Controlling the great storage reservoirs, and the land where the water power is converted into electric motive force, the company now have absolute control of all the conditions necessary to success.

The Virginia and Gold Hill Water Co. are now diverting the waters of Lake Marlette, and carrying them in mammoth pipes to Virginia, and dropping a portion of the water some sixteen hundred feet down the Chollar shaft, and are thus operating five dynamos of 100 horse power each. The electricity thus generated is running a mill on the surface. But one of the largest money-making schemes in connection with the business referred to, is the

STORAGE OF NATURAL ICE.

For a period of nineteen years the portion of the Truckee Basin lying immediately under the eastern crest of the Sierra Nevada, in the vicinity of Truckee, has been the acknowledged ice field of the Pacific Coast. All the natural ice of the Coast must for all future time be stored within a radius of twenty miles of Truckee. It is true that ice can be stored on Walker, Carson and Pitt rivers, and that a firm is now operating on the headwaters of the Willamette in Oregon. But these operations are of no moment because of their location, and of the insignificance of their possible future. Truckee is and must continue to be the only ice belt of the Coast. The Sitka Ice Company attempted to compete with Truckee at the outset fifteen years ago. The attempt was abandoned as fruitless. There are eight companies engaged in storing ice on the Truckee river. This has been the most favorable season for ice making ever known, and each company has put up its maximum limit of ice. Every house is crowded full, and an additional crop of ice could have been gathered by every company had there been storage capacity. The published statements of these companies show that the crop of 1889 is as follows:

Truckee Ice Co.....	4,500
Tahoe Ice Co.....	18,000
Sierra Lakes Co.—Prosser Creek	32,000
Sierra Lakes Co.—Boca.....	20,000
Mountain Ice Co.....	7,000
Peoples' Ice Co.....	9,000
Floriston Ice Co.....	5,000
Rocky Run Ice Co.....	7,000
Essex Ice Co.....	2,000

Total.....104,500

These figures include 4,000 tons carried over from last year, so the actual storage of the season as given by the

companies may be placed at 100,000 tons. In the language of a famous ice Superintendent, these figures may be discounted ten per cent. for exaggeration and ten per cent. for shrinkage, and the result, 80,000 tons, will be about the correct figures.

All of these companies, except the Sierra Lakes Co., have already occupied about all the locations for ice which they possess. The Sierra Lakes Co. can largely increase their cutting area by constructing ponds up the Little Truckee. All these companies are in the combination known as the Union Ice Co., except the Tahoe, Floriston, Rocky Run and Essex. On the lands of the Truckee Lumber Co. included in the bond above mentioned, are splendid locations for

TWENTY-FIVE ICE PONDS

Ranging in size from eight to fifty acres. All these locations are easily accessible to the Central Pacific Railroad, and all are within nine miles of Truckee. The Union Ice Co., has leased some of these locations for a series of years, in order to prevent their being used by competing companies. All leases have now expired, however, and the lands are ready for occupancy by a corporation whose capital stock will be placed at one million dollars. The control of these locations means a control of ice storage of the Pacific Coast, for a larger available acreage for harvesting ice is represented by these locations than of all companies combined. The enormous profits of the ice business, the possibilities of its being extended almost indefinitely, and the comparatively small cost of storing the crops, makes it one of the most desirable investments for capital. It seldom costs as much as 25 cents per ton on an average, to store Truckee's ice crop, and some firms assert that their ice is stored in the houses in favorable winters for less than eight cents per ton. When it is remembered that ice sells for from seven and a half to fifteen dollars per ton, it will be seen that there is a margin for freight, delivery and wastage.

There are extensive locations for ice ponds in Martis Creek, and in the region lying between Martis Creek and the Truckee river, but these locations are absolutely useless unless water can be carried to them over the bonded lands, from the Truckee river. It is also reported that at least one leading ice company will have to make terms or cease operations, because its dam overflows the lands of the Truckee Lumber Co. These lands also include the entire right of way for a

RAILROAD TO TAHOE.

The Central Pacific has offered to build this road if the right of way is granted. The increasing popularity of Lake Tahoe as a Summer resort, the larger quantities of freight that are annually hauled to the lake, the immense tracts of wood and timber that would be accessible, and the certainty that ice crops would be stored and transported to the markets of the coast, all contribute to make this proposed twelve mile railroad a desirable investment. Over a million cords of wood could be cut on the sides of the canyon and the plateau above. This wood and six square miles of virgin forest are also included in the bonded lands. Wood could be supplied to the railroad cheaper along the river, between Truckee and Tahoe, than at any other point on the line of the Southern Pacific. Each side of the canyon is well adapted for fluming wood, and the Tahoe and Truckee railroad could furnish economical wood to the Southern Pacific for the next fifteen years. Messrs. E. J. Daickell and W. H. Kruger, who comprise the Truckee Lumber Co. have amassed large fortunes after leading long lives of constant labor and unceasing care and responsibility. They have each arrived at a time of life when they desire to retire from active business. They have large investments in Oregon and Washington which yield them large returns without requiring of them any arduous labor.

THE MILL AND FACTORY

Of the company are included in the bonded property and can be used for a term of years if desired. The waste waterpower controlled by this mill properly renders it of great value to any company that wish to engage in the lumber business. Machinery of the most modern and improved patterns, fills the mill and factory, and lumber yards and tramways and sidetracks are conveniently arranged for handling and piling and shipping the products. In years past it has been acknowledged to be the most valuable property on the river. The possibility of manufacturing wood pulp from tamarack and fir enhances the desirability of this location. Vast quantities of both kinds of timber are growing upon the lands of the company, and can easily be delivered to the mills. The probability that all the projects above referred will be carried into operation, renders the outlook for Truckee exceedingly favorable. The investment of capital in any of the enterprises mentioned cannot help bringing good times to our community.

Don't Like It Strong.

On Wednesday the Assembly adopted the following resolution, after hearing the reading of Governor Stevenson's veto of the Cadet bill:

Resolved, That it is the sense of this Assembly that the University of the State of Nevada is an institution solely for the aid and benefit of the young men and young women of this State, and that the military department, while its value is not underestimated as a means of training by this body, is, and should be, secondary and subservient to the other educational departments; that we believe no rules so stringent or binding should be adopted or enforced as will make it a hardship for any young man or woman to avail themselves of the educational facilities which have been provided for them.

Mr. Pyne supported the resolution, followed by Ponjaba, who strongly indorsed the practical features of the resolution. It was finally adopted—36 to 4.

Use a Little Discretion.

Every evening on the arrival of the V. & T. and west-bound overland trains, the depot is thronged with people impelled there out of idle curiosity or in want of some better place to go. It would be well for those not having business at the depot to cease their visits there until the dreaded smallpox has been thoroughly eliminated from the neighboring towns, as they are constantly thrown in contact with strangers in the crowded waiting room, and unnecessarily run the risk of meeting with some one who has been exposed to the disease or have the germs of it in their system. Because Reno has so far escaped without having a case in her midst is no sign that she is proof against this contagious disease. "An ounce of prevention is better than a pound of cure."

Auction Sale.

Monday at noon, Mr. Rawling's horse and buggy, music box, club room furniture, fine safe, etc., will be auctioned off, at Merchants' Exchange saloon, corner of Commercial Row and Virginia street.

U. S. Circuit Court.

The convening of this Court has been postponed till April 18th, and the jury business will be put off till that date. Judge Sabin will be at the capital by the 18th at the furthest, when trial jurors must be on hand.

The Carson Tribune says:

Senator Emmitt, of Washoe county, one of the very best of the holdover Senators, was able to be in his seat yesterday after a few days absence on account of sickness. It's proud of the young man we are and certainly his constituents ought to be, for he has made a mark of which anyone might be proud.

Lumber and cedar posts for sale at the N. & C. R. R. Lumber and Wood Yard.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb 21-awt-1v

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nashby, or of Phil Allger, the drayman.

WHAT ON EARTH

Is the reason people will not, can not or do not, see any difference in cheap nostrums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BUGGS' BLOOD PURIFIER and BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

* OSBURN & SHOENAKER, Druggists.

When Baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, short weight, cheap or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., new-dave 108 Wall St., New York.

JOHN BREUNER, SACRAMENTO.

JOHN BREUNER, Furniture and Bedding,

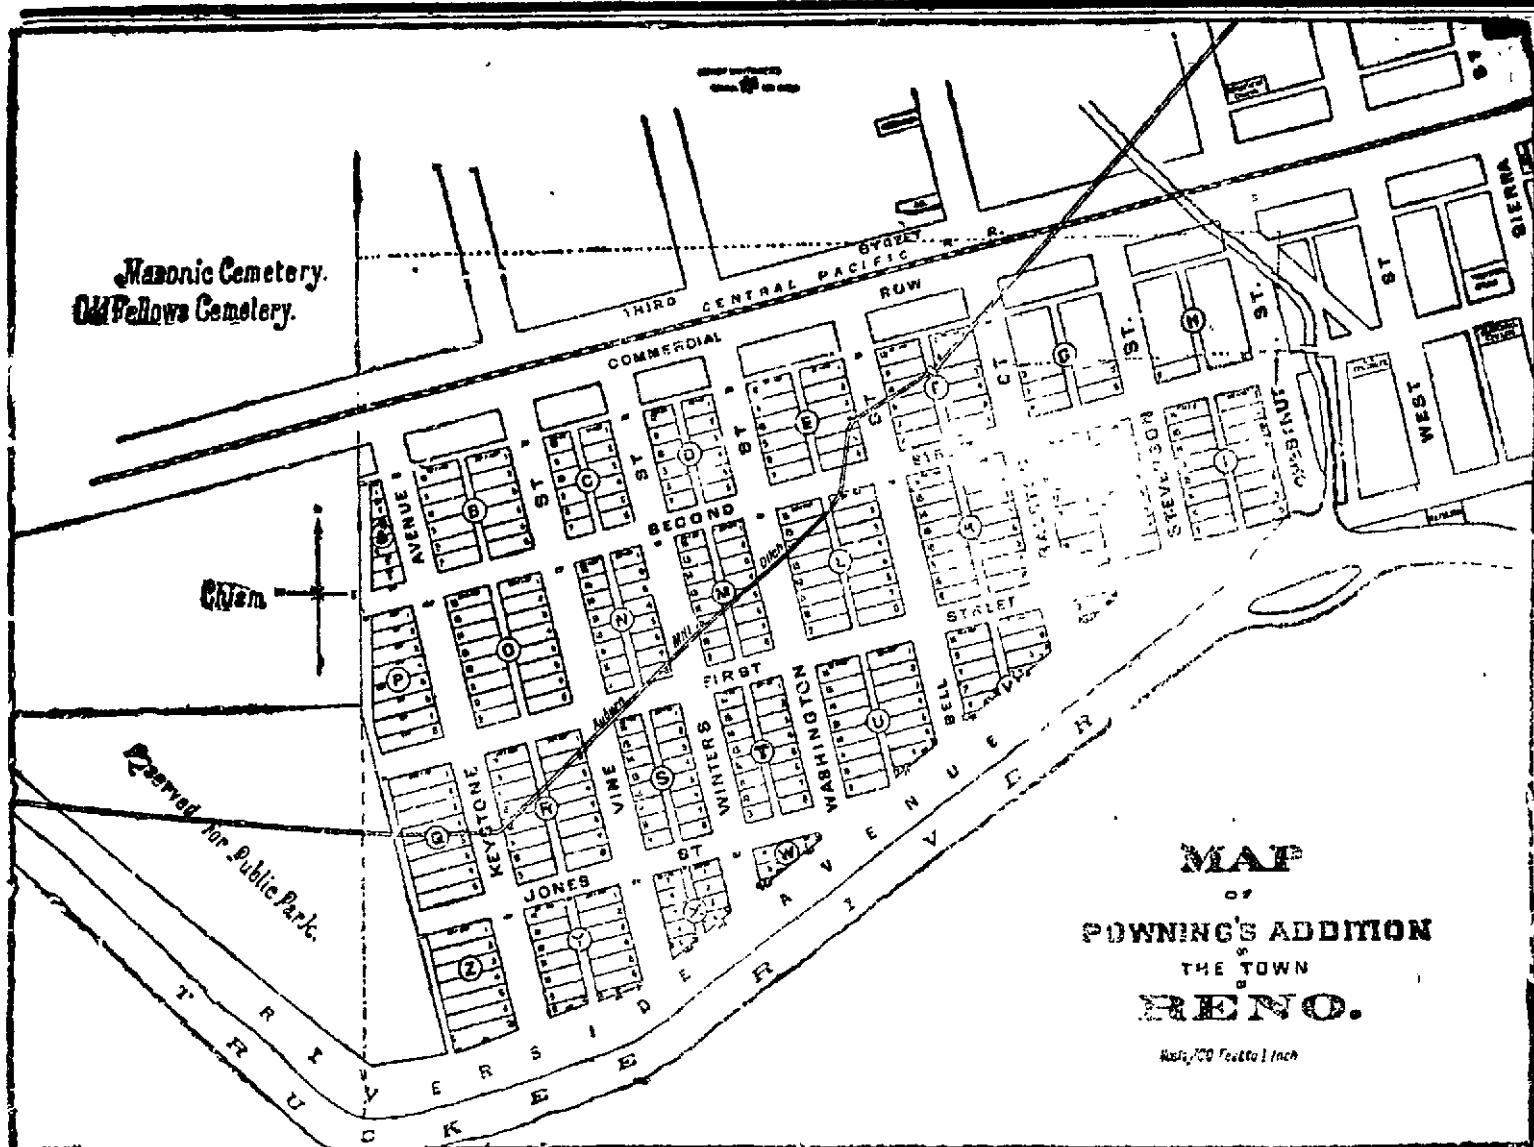

604, 606, and 608 K Street.

SACRAMENTO, CAL.

THE OLD RELIABLE FURNITURE HOUSE OF John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in this business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO!

Has 5,000 Population and is Growing Rapidly.

The Loveliest Town!

The Cleanest Town!

The Wealthiest Town!

The Healthiest Town!

RENO

Is Supported by the Richest Farming Country of Nevada, Northern California and Southern Oregon.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

RENO!

Is the Railroad Center of Nevada.

RENO

Is the Educational Center of Nevada.

RENO

Is the Healthiest Town in Nevada.

RENO

Is Great, and Alfalfa is King.

The Safest Investment

IN THE STATE

RENO PROPERTY

Is the Cheapest on the Coast in comparison with that of other cities.

STATE UNIVERSITY.

SUPERIOR EDUCATION AT HOME.

State University of Nevada,

LOCATED AT RENO.

OFFERS EXCELLENT OPPORTUNITIES TO Young Men and Young Women who desire to obtain a good education. This institution, being a part of the Public School System of the State, TUITION IS FREE to all residents of Nevada.

Five Schools, or Departments, Have Been Organized at the University:

1. The School of Mines and Mining Engineering.
2. The School of Agriculture.
3. The Normal School.
4. The Business Department.
5. The Academic Department.

THE SCHOOL OF MINES AND MINING ENGINEERING includes a thorough course of study in Mathematics, Natural Science and the English Language. Graduates of this School will receive the degree of Mining Engineer.

THE SCHOOL OF AGRICULTURE includes the fundamental branches of mathematics, natural science, the English language and observation and experiments connected with farm and garden. Students in this school will be given an opportunity to defray a portion of their expenses by working on the University farm.

THE NORMAL SCHOOL includes the studies pursued in the Elementary and High Schools of Nevada, the history of education and the theory and practice of teaching. Graduates of the Normal School will receive certificates valid in any Public School of the State.

THE BUSINESS DEPARTMENT includes the study of Arithmetic, Bookkeeping, Commercial Law, Business Forms and the English Language.

THE ACADEMIC DEPARTMENT includes English, Latin, Mathematics and Natural Science. Graduates of this Department will receive the degree of Bachelor of Arts.

The University is equipped with a Library, Geological Cabinet and Physical and Chemical Laboratories. First-class facilities for Amusing will soon be provided.

Practice in reading, singing, declaiming, essay writing and public speaking is afforded by rhetorical exercises, conducted by the Professors and by the literary societies of the University.

Room and board in respectable families can be had for less than \$25 per month.

LE ROY D. BROWN, President University.

Reno, Nevada.

MINING APPLICATION NO. 587.

UNITED STATES LAND OFFICE,
CARSON CITY, NEVADA, February 20, 1899.

NOTICE IS HEREBY GIVEN THAT THE Washoe Quicksilver Mining Company, a corporation existing under and by virtue of the laws of the State of Nevada, by its President and attorney in fact, whose Postoffice address is Virginia City, Storey County, Nevada, has this day filed his application for a patent for the claim of the Washoe Quicksilver Mining Company consisting of the following described five divisions: No. 1, Lafayette, No. 2, Horseshoe, No. 3, Mary Ann, No. 4, Gladstone, and No. 5, New Denmark, each of 1,600 linear feet on the quicksilver deposit, bearing quicksilver or any other precious metals connected therewith, with surface ground 600 feet in width each, all situated in Steamboat Mining District, county of Washoe, Nevada, and designated by the field notes and official plat on file in this office as Lot No. 42, in Section 32, Township 18 North, Range 20 East, M. D. M. Said lot No. 42 being described as follows:

Field notes of U. S. Survey, No. 42, Township 18 North, Range 20 East, Mount Diablo base and meridian, claimed by the Washoe Quicksilver Mining Company, and consisting of five divisions: No. 1, Lafayette, No. 2, Horseshoe, No. 3, Mary Ann, No. 4, Gladstone, and No. 5, New Denmark, and the mining premises appertaining thereto, situated in Steamboat Mining District, county of Washoe and State of Nevada.

Field notes of Lafayette, U. S. Survey, No. 42, in Sec. 32, Township 18 North, Range 20 East, Mount Diablo Meridian. Beginning at the southeast corner of Lafayette division No. 1, at a post marked "Lafayette P. No. 1, U. S. Survey, No. 42," and running, thence

First course—N 17 degrees 05 minutes W, at 760 feet intersected post No. 4, of Division No. 5, New Denmark, U. S. Survey, No. 42, T. 18 N., R. 20 E., M. D. M., 1,500 feet to post marked "Lafayette P. No. 2, W. Q. M. Co., U. S. Survey, No. 42," identical with post No. 1 of Division No. 5, Mary Ann, U. S. Survey, No. 42; thence

Second course—S 72 degrees 55 minutes W, at 300 feet left center monument 600 feet to post marked "Lafayette P. No. 3, W. Q. M. Co., U. S. Survey, No. 42," identical with post No. 4, of Division No. 3, Mary Ann, U. S. Survey, No. 42, and post No. 1, of Division No. 4, Gladstone, U. S. Survey, No. 42, and post No. 2, of Division No. 2, Horseshoe, U. S. Survey, No. 42.

Field notes of Division number 5, New Denmark, U. S. Survey, number 42, in section 32, T. 18 N., R. 20 E., M. D. M., Beginning at a post marked "N. D. P. number 1, W. Q. M. Co., U. S. Survey number 42, thence

First course—N 17 degrees 05 minutes W, 1,500 feet to post marked "N. D. P. No. 2, W. Q. M. Co., U. S. Survey, number 42," thence

Second course—S 72 degrees 55 minutes W, at 300 feet left center monument 600 feet to post in easterly side line of Division No. 3, Mary Ann, U. S. Survey, number 42 marked "N. D. P. number 3, W. Q. M. Co., U. S. Survey number 42," whence the 1/4 section corner in the north line of section 32, T. 18 north, R. 20 east, M. D. M., bears north 20 degrees 31 minutes W, distant 1,040 feet, thence

Third course—S 17 degrees 05 minutes E, in easterly side line of Division No. 3, Mary Ann, U. S. Survey, No. 42, and Division No. 1, Lafayette, U. S. Survey, No. 42, intersecting at 750 feet the post marked "M. A. P. number 1, W. Q. M. Co., U. S. Survey number 42," and "Lafayette P. number 2, W. Q. M. Co., U. S. Survey number 42," 1,500 feet to post marked "N. D. P. number 4, W. Q. M. Co., U. S. Survey number 42," whence the post marked "Lafayette P. number 1, W. Q. M. Co., U. S. Survey number 42," bears S 17 degrees 05 minutes E distant 760 feet, thence

Fourth course—N 72 degrees 55 minutes E, at 300 feet left center monument 600 feet to post marked "N. D. P. No. 1, W. Q. M. Co., U. S. Survey No. 42," the point of beginning, containing 20.66 acres. Bearings true, with a magnetic variation of 10 1/2 degrees W. Total area of the above described five divisions constituting the Washoe Quicksilver Mining Company's claim contain 103.34 acres and is bounded on the north and east by Division No. 1, Lafayette, U. S. Survey, No. 42, and Division No. 2, Horseshoe, U. S. Survey, No. 42, by the claim of Felix Monnet.

The locations of the above described five divisions are recorded in the Recorder's office of Washoe County, Nevada, in Book A of Mining Locations, pages 483, 494 and 495.

Any and all persons claiming adversely any portion of said Division No. 1, Lafayette, Division No. 2, Horseshoe, Division No. 3, Mary Ann, Division No. 4, Gladstone, and Division No. 5, New Denmark constituting the Washoe Quicksilver Mining Company's claim or surface ground are required to file their adverse claims with the Register of the United States Land Office, at Carson City, State of Nevada, during the sixty days of publication hereof or they will be barred by virtue of the provisions of the Statute.

O. H. GALLUP,
Register.
